a. Online   b. Offline   c. SkypeOut

Problem 1

 There is no voice comes out when play music?

Resolution

Please execute the "Control Panel->Sound and Video (🔊)

->Audio", set **Sound Playback** and **Sound Recording**'s

preference device to your sound card. It shown as below:

Problem 2

The voice is played from the PC's sound card instead of the

SE-P5D when I make/answer a call?

Resolution

Execute "Tools->Options->Sound Devices" to open the

window as below:

Set "Audio In" and "Audio Out" to "USB Audio Device".

Problem 3

Skype has been started, but the icon of SkypeMate still shown as ☎ (the phone is green and the outside is grey)?

Resolution

Maybe you have selected the wrong option, you can execute "Tools-> Options-> Privacy-> Manage other programs' access to Skype", and then choose the needed option, click "Change" button to open the "Manage API Access Control" windows, and make another selection.
