**CE Mark Warning:**

This is a Class B product. In a domestic environment, this product may cause radio interference, in which case the user may be required to take adequate measures.

**FCC Statement:**

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and

(2) This device must accept any interference received, including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communication. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

· Reorient or relocate the receiving antenna.

· Increase the separation between the equipment and receiver.

· Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

· Consult the dealer or an experienced radio/TV technician for help.

**Warning:** Changes or modification made to this equipment not expressly approved by the manufacturer. May void the FCC authorization to operate this equipment.

## PROTECTION OF THE ENVIRONMENT / DISPOSAL OF THE EQUIPMENT

Do not on any account put your old equipment out with the domestic refuse.

For the sake of the environment, please use your local authority's collection point set to return and recycle old electric and electronic equipment.

You can find out which recycling firm is responsible for your neighbourhood by contacting your local authority.

Batteries must not be put in the domestic refuse either!

All consumers have a statutory duty to take all batteries to a collection point in their municipality / district or to a retail store so that they can be disposed of in an environmentally-friendly way. regardless of whether they contain toxic substances.

All batteries should be fully discharged before they are returned for disposal.
